**Subject:** MSPE Site Now Accessible and NRMP Registration for Match Opened today!  
**Importance:** High  
**Sensitivity:** Confidential

Hello all!

For those of you who have not been able to access the MSPE site this weekend, I think the issue has been resolved. Please try to log into the site and let me know if you continue to have problems. As the site has been inaccessible most of the weekend, we will, of course, extend the deadline to Wednesday, September 18 end of business day (5 p.m.) for all MSPEs.

Also, **the NRMP site opened today for registration**. You should have received an email from NRMP today with the link and instructions. Let me know if you did not.

**Just a reminder:**

- **Integrated residents** will register and participate in the NRMP Rank Order List (ROL), ranking just the one program into which they have integrated. (Integrated residents do not have to register through ERAS.)
- **Military match** – unless required by the military, you do not have to participate in the NRMP. If you are military and your program does not require you to participate in NRMP, please notify me so I can withdraw you from their roster.
- **Early match** – Students who are participating in early match may be withdrawn from the NRMP as long as their program does not require them to register. Some early match programs require a preliminary or transitional year. In these cases, the student will have to register and use the NRMP for the PGY 1 year match. For those participating in early match, please notify me of your plans.
- **You can register up to the February 26 deadline; however, early registration ends November 30. After November 30, there is an additional \$50.00 late fee** added to the initial \$50.00 fee, making the total fee \$100.00. Save yourself \$50 and register by November 30, if possible.

Let me know if you have any questions.  
Thank you,

*Gina*
