

The extent of involvement by our class is variable. Some alumni will offer housing for away rotations (for free or for rent) or interviews, tours of the city/hospital and transportation to and from the airport. Most alumni are willing to be contacts for students and offer advice about residency, the prospective medical center, community and specialty in which they are interviewing. Alumni who stayed in Columbia for residency are still available as contact resources. **As residency schedules are always unpredictable, the answers listed to these services are open to change, so be sure to contact the person with plenty of time prior to your visit.** Good luck with your 4th year! We hope you find this helpful. You may contact anbfg8@mail.missouri.edu with questions.

In the marital status column, S = single, E = engaged and M = married.
