

Adding the Medical Student Heading in PowerNote

Medical Students need to add a heading to their PowerNote to clarify that this is a note written by a medical student.

Follow these directions to add the Medical Student heading to your notes:

1. Open a patient's chart (Ztest, Zebra is a fake patient that you could open).
2. Click on the **Document Viewing** menu selection.
3. Click the **Add** button.
4. Click **View \ Customize** on the file menu.
5. Click on the **Miscellaneous** tab.
6. Type **Medical Student** in the *Note Heading* field.

7. Click **Apply** and **OK**. The Medical Student heading designation will now appear at the top of your note.
