Subject: Student Lounge and Call Room Access

Medical Student Lounge:
Room Number MA112
Door Code 315

The lounge is equipped with 2 refrigerators and microwaves. There are 7 desktop computers with printing capabilities linked to the campus Print Smart system. MSAC develops a cleaning schedule with the responsibility rotated between student organizations.

Call Rooms at University Hospital:
M108F - Call Room 4 - Students - Open Access, 2 beds
M108B - Call Room 6 - Students - Females, 4 beds
M108A - Call Room 7 - Students - Males, 4 beds

There are 2 entrances to the M108 suite (one in the M105/Bryant hallway, and one from the vending machine area). Access to the outer doors as well as individual call rooms is by badge swipe. You will need to hold the black swipe line located on the back of your badge over the red light, and it will turn green when access is granted. Badges have been cleared through security for access. If you are unable to access the rooms with your badge, please contact Hospital Security (882-7147). If no bed is available, please contact Deborah Pasch, Executive Director, University Hospital (884-8644 or paschd@health.missouri.edu).

FAMS supplies general hygiene products for the call room bathrooms (i.e., shampoo, soap).

When you begin rotations at Women's and Children's Hospital, you will receive information about their student lounge and call rooms.

Let me know if I can help with anything or you have questions.

Suzanne
