Please note revisions:

- 1) Attachment above
- 2) Inpatient section below

**From:** Sypes, Ruth Y.  
**Sent:** Tuesday, March 18, 2014 9:26 AM  
**To:** UMHS - MU Med School 2015  
**Subject:** Child Health M4 rotations in 2014-15

**Please keep this email as a reference if you are registered for M4 rotations in Child Health in 2014-15. Please see the attachment for expected conference attendance while on Child Health rotations. The rotation you are registered in may have additional division conferences you will attend.**

**You should contact the appropriate division one week before the rotation to find out when/where to report the first day.**

Contacts are listed below and all phone numbers have a 573 area code.

**Adolescent Medicine** - Paula Partridge (882-6161)

**Development** – Robin Wilcox (884-7730)

**Diabetes** – Angie Melloway, Stephanie Gerlach, Shianna Coleman (882-8216)

**Gastroenterology** – contact nurse Donnell Hellensmith (text pager 397-0048)

**Genetics** – Sarah Towne, Frances Moran, Sharice Hickem (882-6992)

**Hem/Onc** – Monica Curry (882-3961). **There are several articles you will need to read which I will email to you. Please contact me if you haven't received it 2-3 weeks before the rotation begins.**

**Infectious Disease** – Paula Partridge (882-6161)

**Inpatient** – Each day arrive by 6 am in the swamp (labeled conference room) on 5<sup>th</sup> floor at WCH. **The Sunday prior to the start of your rotation** you should go in at or before 5 p.m. to speak about your assigned patients. Check-out (where you can hear about all of the patients) is at 6 a.m. and 5 p.m. on that Sunday. **There are several articles you will need to read which I will email to you. Please contact me if you haven't received it 2-3 weeks before the rotation begins.**

**Neonatology** – It is recommended you go to the NICU on Sunday afternoon to get your patient list, get briefed on your patients, and to go over how to collect your numbers in the morning. You might call the NICU (499-6180) and speak with the resident on call to find out a good time to come (usually 2-4 is a good time but this is not guaranteed...depends on the residents' work load). Thereafter please report to the NICU swamp at 0600 for check out. The unit clerk at the front desk can show you the physician work room. **I will send you the NICU survival guide which you should read before you start the rotation. Please contact me if you haven't received it 2-3 weeks before the rotation begins.**

Each day arrive by 6 am. **The Sunday prior to the start of your rotation** you should contact the NICU resident – you will likely be asked to come in to learn about your assigned patients. NICU number 499-6180.

**Neph/Rheum** – Paula Partridge (882-6161). **There are articles you will need to read which I will email to you. Please contact me if you haven't received it 2-3 weeks before the rotation begins.**

**Outpatient** – report to Green Meadows 3217 S. Providence Road Bldg C by 8 AM. If questions contact Shawn Willingham (884-1744).

**PICU** – On Sunday morning page the Child Health resident on PICU call. Call the hospital operator at 875-9000 and have them page the Child Health resident on PICU call. Or call the PICU at 219-4271 and ask for Child Health resident on PICU call.

**Pulmonary** – contact nurse Angie Painter (text pager 499-7628)

### **Away Rotations**

If in your M4 year you would like to do a pediatric away rotation, please submit the offsite paperwork required by OME. It is your responsibility to meet all OME requirements and complete required paperwork.

The Child Health student director also requests that you print a description of the rotation from the school's website and also include duty hour information. It is at the discretion of the clerkship director to approve or not approve a rotation submitted under pediatrics.

If you are interested in an away rotation in pediatric endocrinology, please see the information below. (We are happy to have students here in our endocrinology division. This is just an option if you prefer to go away.) He is interested in having students rotate with him. You will need to contact him for further information.

## M4 REQUIREMENTS FOR CHILD HEALTH ROTATION

\_\_\_\_\_ Complete all duties and/or readings assigned by your rotation attending/residents.

\_\_\_\_\_ Attend weekly Problem Conference on **Tuesdays at 12:15 in South Pavilion 018 A&B**. If you are assigned to Green Meadows, you can watch from there via telehealth. **You are not required to sign in.** Feel free to eat your lunch during conference.

\_\_\_\_\_ **On Wednesdays at 2:00** – If you are on the **inpatient rotation**, you will attend radiology rounds in the Radiology Reading Room at WCH. Rounds will last 15-30 minutes and you will review images of ward cases within the past week. Residents and students are expected to attend. **You are not required to sign in.**

\_\_\_\_\_ Attend EBM on Thursdays 12:15 – 1:00 in South Pavilion 018A&B. Feel free to eat your lunch during conference. If you are at Green Meadows, you may watch via telehealth with the residents assigned there. Residents will stay for afternoon didactics in the South Pavilion. You will return to your rotation. **You are not required to sign in.**

\_\_\_\_\_ Attend Grand Rounds on **Friday mornings at 8:00 in WCH conference center**. . If you are assigned to Green Meadows, you can watch from there via telehealth. **You are not required to sign in.**

**Please remember to notify your senior resident or attending and Ruth if you have an unexpected absence (illness, family emergency, etc.). You will also need to complete an absence form which you may obtain from Ruth.**
