My name is Patrick Marks and my company will be producing your Graduation Composite this year. The photos will also be sent to the Medical School automatically for your Residency Applications. The composite is completed in April, but we like to get everyone's picture as soon as possible. The sooner you get your picture taken, the sooner it will get onto your Residency Application. You will be having your pictures taken at LG Patterson's Studio (my Partner), also known as Recess Inc. His studio is located on Broadway behind the Inside Columbia Magazine offices. (Across the street from Office Depot and next to Lifestyle Furniture)

If you have any other questions please feel free to email or contact me.
