Subject: Legacy Teachers Reminder

Your third year is quickly moving along and you have had the chance to have many important and memorable patient care experiences. We wanted to take this time to remind you about the Legacy Teachers program and encourage you to submit to it.

When you attended the Legacy Teachers luncheon last year, you caught a glimpse of the powerful relationships that can occur between third year medical students and their patients and what important teachers our patients are for us. We hope you also saw how meaningful this recognition was to these teachers and their families and the special opportunity this was to say thank you.

Attached is this year's brochure with all the information you need to submit an essay (2-3 pages is fine), poem or artwork. Dr. Garrett will help with editing your essays and choosing final quotations to be used in the program. Deadline for submissions is February 11th but submissions throughout the year are encouraged and welcome!

This is a very special chance to recognize a patient who has taught you something that will make you a better physician and let them know what a difference they have made for you. The Legacy Teachers website at <http://medicine.missouri.edu/legacy/> has more details, samples of previous submissions, videos, etc.

We look forward to hearing from you. Please let me know if you have any questions.

Thanks!
