

Russell D. & Mary B. Sheldon Clinical Simulation Center

American Heart Association ACLS & BLS Recertification

ACLS Recertification - Updated with the 2010 Guidelines

Designed for personnel who staff emergency departments, intensive care units, or critical care departments, as well as physicians, nurses, emergency technicians, paramedics, respiratory therapists, and other professionals who may respond to a cardiovascular emergency. The ACLS Provider course provides the knowledge and skills needed to evaluate and manage the first 10 minutes of an adult ventricular fibrillation / ventricular tachycardia (VF/VT) arrest.

HeartCode™ BLS Get BLS Certification with HeartCode!

1. Review a computer-based set of lessons followed by completing two microsimulation scenarios – one adult and one infant patient. You work at your own pace, completing the lessons in as little or as much time as you need.
2. Then, demonstrate psychomotor skills on the adult and infant, real-time, voice-assisted manikins. Interactive coaching helps you perform CPR in accordance with AHA guidelines. Receive your AHA CPR card in the mail upon successful completion of the HeartCode BLS course!

The **ACLS course is \$175.00**. You complete the Self-Study Cognitive Portion on our computer. Then register for the Skills Portion with a specialized mannequin assessment in the Simulation Center.

The **BLS course is \$60.00**, completing both the Cognitive and Skills portion in the Simulation Center.

For additional information or to register please contact Marie Knoop at 573-884-0277 or EMAIL knoopm@health.missouri.edu.
